MABE INTERNET TAG

The internet tag is a solution for tracking down any information linked to an owner who has intentionally left it behind. It creates a set that can be found if the tag is known/found through a search. Simply searching for this tag on a search engine will find the collection.
You can place the tag anywhere on the Internet you'd like to find it, just make sure it's not too visible to ordinary people.

Instructions for use

1 The original tag word **MABE**

---

2 The binary-encoded tag **01101101011000010110001001100101000010 10**

---

3 Camouflage of the encoded tag

The **0** are replaced by **«i»** and the **1** are replaced by the **«L»**.

iLLiLLiLiLLiiiiLiLLiiiLiiLLiiLiLiiiiLiLi

---

4 Copy it to your clipboard and place it on the Internet!
